

## Investors and Clients Beware!

Please check you portfolio for Stericycle (SRCL) and *pull out now!* Your investment in Stericycle helps to support the company's daily collaboration with the abortion industry and makes possible thousands of deaths each day.

Stericycle is lying to the public by denying its collection, transportation, and incineration of aborted children. While their "Waste Acceptance Policy" states that they do not accept "complete human remains," this statement is engineered to absolve them of guilt, since in their own admission the remains of aborted babies are neither considered "complete" nor "human."

Stericycle CEO Mark C. Miller, blood money profiteer and abortion industry collaborator

profiting off of the blood of innocent preborn children. Email Stericycle President Charles Alutto today at [calutto@stericycle.com](mailto:calutto@stericycle.com) and call his desk at 847-607-2004. Email Stericycle CEO Mark Miller at [mmiller@stericycle.com](mailto:mmiller@stericycle.com) and call his desk at 847-607-2038.

The precious hands, feet and once beating hearts of children are thrown into the trash, and Stericycle helps keep the abortion industry's cycle of death going.

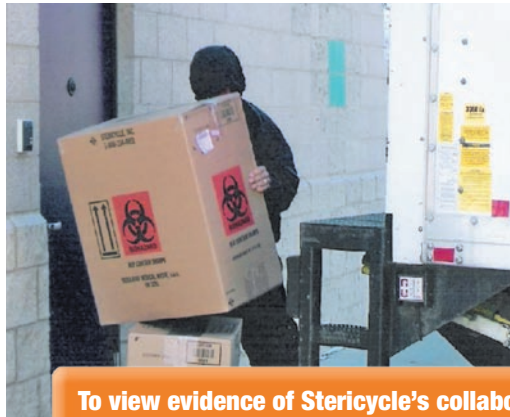

If this isn't what you want, tell Stericycle and its millionaire executives Charles Alutto and Mark Miller to stop assisting the abortion industry and

## The Campaign to Stop Stericycle

The Campaign to Stop Stericycle (CSS) exists to inform the public about Stericycle's involvement with the abortion industry and to exhort the nation to **call upon Stericycle to stop being a part of the village that is working to kill America's children.**

CSS has collected an overwhelming amount of evidence linking Stericycle to the abortion industry, and has uncovered sickening truths about the company's collection, transportation and incineration of aborted children. This includes recorded admissions from Stericycle and government documents that certify the use of Stericycle by the abortion industry.

*Join us in the fight!* Visit [stopstericycle.com/help](http://stopstericycle.com/help) for ways that you can get involved!

Where have all  
**the children gone?**

**Without Stericycle — and businesses like it — the abortion industry collapses.  
Will you call upon Stericycle to stop servicing the abortion industry?**

## It Takes a Village to Kill a Child

Abortion mills can't take the lives of innocent, precious preborn children on their own. They need the help of numerous businesses to facilitate the

murder of innocent boys and girls. As it was during Nazi, Germany's Jewish Holocaust, there are businesses all across this country collaborating with the abortion industry in their diabolical agenda to kill thousands of "unwanted" persons.

Stericycle is the premiere "waste" service to the abortion industry, and as such is one of the top facilitators of the abortion holocaust. Abortion mills cannot operate without their help. With their greed, coupled with lack of conscience and ethics regarding human life, billion-dollar Stericycle is aiding and abetting abortion mills and keeping them in business. As a result, 4,000 children continue to be killed every day by the evils of abortion.

Stericycle wheels out "pathological waste" from Planned Parenthood in Sacramento, CA

*If Stericycle and businesses like it stop servicing the abortion industry, abortion stops.*

## Stericycle's Abortion Collaboration

Stericycle reportedly services nearly 600 Planned Parenthood locations, as well as numerous other abortion facilities nationwide.

Last year, Stericycle was investigated and fined in the state of Texas for illegally dumping aborted fetuses into a municipal landfill. In the process, local Stericycle representatives admitted to government officials that the company protocol is to transport fetuses to an incineration plant for disposal.

One of the thousands of children killed every day by abortion

It has also been documented in Pennsylvania by the Philadelphia District Attorney's Office that Stericycle had serviced notorious abortionist Kermit Gosnell, who is now facing murder charges. The Grand Jury Presentment outlined that one of Gosnell's employees "testified that his duties included collecting the red biohazard bags of fetal remains and putting them in boxes for pickup by an outside firm, Stericycle."

Additionally, Stericycle collected "waste" from several abortion facilities owned by Steven Brigham, who is now facing ten counts of murder. Stericycle had serviced Brigham's "secret" late-term facility for a time, until it was raided by police.

Morals should be more important than money. Many medical waste companies do not service the abortion industry, because as a business, they have a right to decline contracts that violate their conscience.

It's time for Stericycle to do what's right. *Will you tell them to stop assisting those that destroy life?*

## Stericycle's Collection, Transportation and Incineration of Aborted Children

After hauling away the aborted babies and the items used in their death, Stericycle transports them to the company's incineration plants, where they are burned into ash along with tons of medical garbage. One facility, located in Haw River, North Carolina, services over 20 states. There are nearly a dozen other incineration plants across America.

The future of our nation's children is going up in smoke. *Children should be cherished, not treated as trash.*

Stericycle's Haw River incineration plant, where aborted children from over 20 states are burned into ash.

**Stericycle's collection, transportation and incineration of aborted children must STOP!**
